

## 'CHANGE REFUSES TO LIST CITY BONDS NOT 'TRUST' MADE

Gaynor Defies Attempt to Coerce Contract to American Bank Note Company.

War was declared by the Mayor today against the American Bank Note Company and the Stock Exchange, which have co-operated for years to force the city to give the Bank Note Company the contract for engraving the city's bonds.

Supervisor of the City Record Ferguson, through whom this work is contracted for, made the charges to the Mayor. The latter declared that he would not tolerate such coercion. In retaliation, the Stock Exchange officers declare that if the American Bank Note Company does not get the work it will refuse to list the city's securities.

Comptroller Prendergast takes sides with the Mayor in the controversy, but adds that the city is under a moral obligation to see that its bonds are listed. The point at issue is the engraving of the \$40,000,000 of bonds which were sold by the city last month. It appears that the Bank Note Company has been favored for years with the contract for engraving city bonds, powerful political influence having much to do with the direction of the contract.

Following his ultimatum to the effect that he would defy both the Stock Exchange and the Bank Note Company, the Mayor called a special meeting of the Board of City Record for Monday morning next, at which the award of the contract will finally be made, regardless of the Stock Exchange.

Two bids, it developed, were put in by the American Bank Note Company, its first figure being \$22,000, for printing and engraving the \$40,000,000 bonds. The New York Bank Note Company offered to do the work for \$44,500. When the American Bank Note Company learned of the bid of the other company, it submitted another estimate to the city, offering to do the work for \$22,000, a reduction of 10 per cent.

## POPE'S FEVER LESS, BUT MUCH CARE IS ORDERED

Pontiff Has Some Trouble in Breathing, and Doctor Says He Must Have Absolute Rest.

ROME, Feb. 16.—Pope Pius, who is suffering an attack of influenza, had a relatively calm night and early today his temperature had fallen from 100 to 99, only half a degree above normal. Dr. Giuseppe Petacci, private physician to His Holiness, visited the sick chamber this morning and remained a long time. He considers that the malady is taking its normal course and has ordered the usual remedies. He has directed that extreme care be exercised and that the Pontiff have absolute rest. Dr. Ettore Marchiafava, consulting physician to the Pope, has not been called into the case yet, and this fact seems to indicate that the illness is not serious. The patient, however, is suffering some inconvenience because of a congestion of the bronchial tubes, with some difficulty in breathing and increased respiration.

The fever having abated, Dr. Petacci permitted His Holiness to rise from his bed this afternoon, but soon afterward advised him to return to it in order to avoid fatigue and the possibility of taking more cold, which might result in a relapse.

## RUSSIA THREATENS WAR WITH CHINA; RUSHING TROOPS

LONDON, Feb. 16.—The relations of Russia and China are strained to the breaking point. Russia today notified the Government of Great Britain, France and Germany of her intention to make a military demonstration on the Russo-Chinese frontier owing to China's persistent violation of the St. Petersburg treaty of 1858.

Russian troops will be sent forthwith to the district of Ili. The extent of the demonstration, it is added in the diplomatic note, will depend entirely upon the attitude assumed by China. The vital questions involved are free trade in Mongolia, the extra territorial rights of Russians in China and the establishment of a Russian consulate at Kondo, Mongolia. A military demonstration by Russia against China must be viewed more as a threat of punishment than as a prelude of actual war, as the military resources of the Chinese Government are decidedly limited and the army organization medieval. Extensive plans for a military reorganization are maturing slowly, but at present China must rely on about 100,000 provincial troops, only part of whom have been trained according to European methods. The Chinese military or "green flag" has an efficiency not much greater than the "light banners," the oldest military force, which is an army of penitents rather than a serious fighting body.

## DETECTIVE PLEADS FOR BOY PRISONER AND WINS PAROLE

Lieut. Reich Upsets All Precedents of True Sleuthing by Begging for Leniency.

Some of the police friends of Lieut. William B. Reich of the Central Office are of the opinion that he would confess, under the third degree, that he hears strange noises and sees things. Reich violated all professional sleuth rules in the Court of General Sessions today when, instead of trying his best to send a prisoner he had captured to jail he begged for leniency in the prisoner's behalf.

The offender in the case is Joseph Tillman, seventeen years old, of No. 206 East Twenty-sixth street, a good looking, well-mannered youth, who was until early last January in charge of the telephone switchboard in Burns's restaurant. Lured by an offer of a better salary, young Tillman, who had never been out of New York before in his life, went to Springfield, Mass., to take charge of the telephone service in the well-known Mayasett Club.

Within a few days young Tillman's favorite song was "Gee, but this is a Lonesome Town." He realized that there is a big difference between Sixth avenue, New York, and Springfield, Mass., and he hankered for Sixth avenue.

The hankering overpowered him a week ago. He returned to New York and he brought with him a fine overcoat, the property of Herbert M. Fowler, a member of the club.

The club reported the theft to the Springfield police and the Springfield

police sent the report to this city. Reich was put on the case and had no difficulty in locating young Tillman at his home.

"I swiped the bunny all right," said Tillman to the detective. "I couldn't stay up there any longer. I had only enough money to bring me back. My overcoat was pretty punk, so I took one out of the coatroom so I'd come back home making a front."

When Tillman was arraigned before Judge Foster today Reich pleaded for clemency. He said he believed the lad would brace up and had in him the making of a good citizen.

"Will you accept the responsibility of taking this boy on parole?" asked the Court.

"I will, gladly," replied Reich.

ANNEXATION OF CANADA  
AIM OF CONGRESS BILL.

WASHINGTON, Feb. 16.—The annexation of Canada as an immediate proposition was proposed in a resolution introduced in the House today by Representative Bennett (Republican of New York). It read:

"That the President be requested to begin and continue negotiations with the British Government to secure the annexation of Canada to the United States."

Bennet declared that he introduced the resolution purely on his own initiative, but he said:

"Annexation of Canada to the United States will have to come some time. It might as well be now."

"Every woman prizes luxuriant hair," says Mae Martyn, in the San Francisco Bulletin, "and many find that much depends on shampooing. Various preparations are used for this purpose, but few are free from injurious ingredients, and the result is thin, straggly hair and itchy scalps."

"A simple and inexpensive shampoo mixture can be made at home by dissolving a teaspoonful of canthrox in a teaspoon of hot water. This is poured on the scalp and rubbed until lathering freely, then the hair rinsed carefully and dried."

"Nothing so quickly promotes a healthy condition of the scalp as a canthrox shampoo, and its use is certain to produce luxuriant hair. Care should be taken to get an original package of canthrox."—Advt.

WANT LUXURIANT HAIR? THEN TRY THIS
